Extraordinary care.
Infinite possibilities.

Forest Hill™

Center for Rehabilitation
and Healing

About us

We understand the challenges patients face in trying to rebuild their life after being hospitalized for major illness or sudden trauma. Regulations require patients be discharged from the hospital as soon as they have been stabilized. That presents a problem for both patients and their families. Many still require either daily skilled nursing care and/or continued therapies to heal completely.

If you, or someone you love, require skilled nursing care or rehabilitation services, we'd love to welcome you to take that journey with us at Forest Hill.
